

VISUAL STYLE:

Macro Lens focus on fingertip interaction. Luminous Tech-Noir.

LIGHTING:

High-key studio lighting, warm rim light on CTO. Strictly optimistic tone.

AUDIO:

Subdued electronic ambient pulse fading in.

You have a brilliant idea. But starting R&D from absolute zero—how do you survive the wait?

CAMERA:

Extreme Macro.

MOTION
GRAPHICS:

Cyan blueprint rendering anima-
tion. Tech Noir data visualization
floating in bright space.

AUDIO:

Crisp, electronic glitch chime
triggering on logo reveal.

The truth is, patents from global tech giants are already here.

MOTION GRAPHICS:
The data block must possess satisfying visual weight and tangibility despite being digital.

LIGHTING:
Crisp, natural light reflections on the holographic surface. Avoid dark/moody shading.

There's no need to reinvent the wheel.

FUI DESIGN:

The startup framework must look robust, architectural, and highly advanced.

LIGHTING:

Positive, ambient daylight passing through the semi-transparent 3D structure.

Directly transform existing patents into functional modules for your product.

MOTION GRAPHICS:
High-impact Snap physics.

AUDIO:
A satisfying, bass-heavy yet crisp electronic Snap beat.

LIGHTING:
Bright, energetic flash upon connection; avoid harsh glare.

TIME SAVED: 85% LEAP
857 / 3674

One Snap, and your R&D
timeline leaps forward.

DATA VISUALIZATION:

Upward trending motion graphics using positive color psychology (bright greens, cyan, white).

VFX:

Forcefield expansion must feel protective and empowering, strictly optimistic.

Your competitive moat
gets higher and higher.

CAMERA WORK:

Dolly zoom to spike the kinetic energy.

LIGHTING:

Shift entirely into bright, natural daylight.

Total emphasis on real-world application and success.

Skip the hardest years.
Launch straight onto the runway.

A man in a grey sweater and khaki pants is walking on a staircase made of glowing, futuristic patent blocks. The blocks are stacked in a way that creates a staircase effect, with each step being a block. The blocks are glowing with a blue and orange light, and they have various technical diagrams and text on them, including the words 'ARTIFICIAL INTELLIGENCE' and 'NOMA'. In the background, there are other people in a modern office setting with large windows.

VISUAL CONCEPT:

The ultimate synthesis of Tech Noir
FUI data grounded perfectly in a
bright, clean, real-world setting.

PACING:

Slow the visual pacing down to
emphasize the monumental scale
of the Key Visual.

With giant patents as your foundation...

A man in a dark sweater and trousers stands at the top of a large, glowing blue digital staircase. The staircase is composed of many rectangular blocks, each with a grid pattern and glowing orange lines. The scene is set in a modern office with large windows in the background, through which a bright, hazy cityscape is visible. The lighting is warm and golden, creating a heroic and optimistic atmosphere. The man's face is not shadowed, and the overall color grading is vibrant and high-contrast.

CAMERA:
Low-angle heroic framing.

LIGHTING:
Absolute emotional peak.
Highly vibrant color grading.
Pure optimism with zero
shadows on the subject's face.

...startup success doesn't have to start from zero.

MOTION GRAPHICS:

Seamless fluid morphing animation into the logo.

AUDIO:

The driving glitch-beat resolves into a clean, triumphant, ringing harmonic chord.

CONTEXT: Grounding the tech-narrative firmly in Hong Kong's actual business ecosystem.

CONSTRAINT: Must feature a blue-sky, clear-day shot of Victoria Harbour to satisfy the vibrant, optimistic mandate.

(Uplifting ambient city sounds mixed with an inspiring tech-synth pad)

The IP Stack (專利加速棧)

(End signature chime)
